## Backstage Area

- Backstage, in a lounge with several rooms, the speakers/session leaders can test or practise their presentations on the media walls that are available in multiple locations.
- In a separate area, the events in the congress room can be followed via monitors, including audio transmission.

The events in the congress room, including audio, can be followed backstage via monitors.

In the run-up to and during the event, several rooms can be used for practising and waiting.
